Searching for Federal Courts:

District Courts index by defendant, plaintiff, and by case number. Bankruptcy Courts usually index by debtor and case number. Most case files created prior to 1999 were maintained in paper format only. Since 2006, all cases are filed electronically. Paper case files may be stored at the courthouse or forwarded to a designated Federal Records Center (see <http://archives.gov/frc>), the timeframe determined by the Court. These case files may be obtained via the Court or directly from the FRC.

Case data may be viewed PACER, the online public access program. An account is required, the fee is \$.10 per page; there is no fee if a usage does not exceed \$15.00 in a quarter. For details about PACER see the Appendix or go to <https://www.pacer.gov> or call 800-676-6856.

The copy fee is \$.50; \$.10 if electronic document is printed from terminal. Certification fee is \$11.00 per document and \$21.00 for exemplification, if available. If a case is still available from the individual federal court, the search fee is \$30.00. If the case is at the Archives, the case can be ordered from the court. The fee to retrieve a paper file is \$64.00 for the first box and \$39.00 ea add'l box. Also, the public can order copies direct online from the National Archives. Copies can be delivered by mail, fax, or email. See more information, including fees, at www.archives.gov/research/court-records/.55.

Details on the Court Structure

Circuit Courts are the courts of general jurisdiction and are arranged in 28 circuits. Note that circuits number only to 23, but some numeric circuits have multiple circuits – such as 11W and 11E. Circuit Courts consist of five subject matter divisions: criminal, civil, probate, domestic relations, and juvenile. The Circuit clerks who are the keepers of records of Circuit Court also serve as the country recorder of deeds and other instruments; however some counties have a County Clerk that handles probate.

District Courts, formerly known as Municipal Courts, exercise countywide jurisdiction over misdemeanor cases, preliminary felony cases, and civil cases in matters of less than \$5,000, including small claims.

The state is in the midst of a major transition. There are **State District Courts** and **Local District Courts**, depending on which agency pays the judge (state or local). Local District courts hear civil cases with a limit of \$5,000. State District Courts hear civil cases with a limit of \$25,000. At one time, **City Courts** exercised citywide jurisdiction and operate in smaller communities where District Courts did not exist. All City Courts were closed or combined with Local District Courts by January 1, 2012.

An additional group of counties will have their Local District Courts become State District Courts in 2017. A map with those affected counties by year is shown at <https://courts.arkansas.gov/courts/district-courts/map>.

Record Searching Facts You Need to Know

Fees and Record Searching Tips

Many courts that allow written search requests require an SASE. Fees vary widely across jurisdictions as do prepayment requirements. Less than half of the courts charge a search fee, which can vary from \$1.00 to \$10.00. Both the Circuit and District Courts in the participating counties (shown in the individual court's profile) should be searched if a true countywide search is needed.

The AOC has a growing number of Courts participating in a limited online docket look-up by name or case number called CourtConnect at <https://caseinfo.aoc.arkansas.gov>.

There are **two "levels"** of record searching; **one is thorough, one is very limited**.

The **thorough level** has over 40 Circuit Courts, plus District Courts from 5 counties, and 2 Counties with Probate only participating. The data provided is fairly detailed information that goes back in time a good number of years. The system provides links to case images for some records. Cases available include civil, criminal, domestic relations, and probate. If you do not provide a DOB, there is no DOB provided.

The **"lower level"** has 22 Circuit Courts participating, but these courts provide very limited data online - all cases are not included. What is shown for these courts is only the data as provided on paper coversheets to the Administrative Office of the Courts and the participating Circuit Court may not report all case types on paper. The searches are not onsite equivalent. If you do not provide a DOB, there is no DOB provided.

Throughout 2015, at least 10 more counties will be added to this system. The web page provides a list of the courts participating on each of these levels.

Arkansas County Locator

You will usually be able to find the city name in the City/County Cross Reference below. However, only the official US Postal Service city names are included in this index. There are an additional 40,000 place names that people use in their addresses. Therefore, we have also included a ZIP/City Cross Reference immediately following the City/County Cross Reference.

If you know the ZIP Code but the city name does not appear in the City/County Cross Reference index, look up the ZIP Code in the ZIP/City Cross Reference, find the city name, then look up the city name in the City/County Cross Reference. For example, you want to know the county for an address of Menands, NY 12204. There is no "Menands" in the City/County Cross Reference. The ZIP/City Cross Reference shows that ZIP Codes 12201-12288 are for the city of Albany. Looking back in the City/County Cross Reference, Albany is in Albany County.
