Searching Standards for Federal Courts:

District Courts index by defendant, plaintiff, and by case number. Bankruptcy Courts usually index by debtor and case number. Most case files created prior to 1999 were maintained in paper format only. Since 2006, all cases are filed electronically. Paper case files may be stored at the courthouse or forwarded to a designated Federal Records Center (see <http://archives.gov/frc>), the timeframe determined by the Court. These case files may be obtained via the Court or directly from the FRC.

Case data may be viewed PACER, the online public access program. An account is required, the fee is \$.10 per page; there is no fee if a usage does not exceed \$15.00 in a quarter. For details about PACER

The Supreme Court and Court of Appeals

The Supreme Court is the highest court in the state. The Court of Appeals reviews all final decisions of the trial courts, state agencies and local governments, except from the Minnesota Tax Court, the Minnesota Workers' Compensation Court of Appeals, first-degree murder cases and statewide election contests. Opinions are found at the home page mentioned above.

Details on the Trial Court Structure

District Courts hear everything from traffic tickets, to civil and family conflicts, to first degree murder trials. Some District Courts may have separate divisions, such as criminal, civil, probate, family, and juvenile courts. Gne120

Each county has one or more Traffic Courts that are housed where criminal cases are heard.

The Conciliation Court is a division of Civil Court and handles small claims. The limit for small claims is \$10,000 unless the case involves a consumer credit transaction, then the limit is \$4000 or \$15,000.00 if the claim involves money or personal property subject to forfeiture under section 84.7741, 169A.63, 609.5311, 609.5312, 609.531 4, or 609.5318. This is the limit set by law. You cannot file a claim involving title to real estate, libel, slander, class actions or medical malpractice in a conciliation Court.

There are eleven Tribal Courts with jurisdiction on tribal land.

Record Searching Facts You Need to Know

Fees and Record Searching Tips

Most Judicial Districts no longer perform criminal record name searches for the public, but may do civil name searches. Search fees are set by the individual District Courts or by their Judicial District. In general, the search fee ranges from \$5.00 to \$16.00. Some courts charge an additional \$10.00 plus the copy fee.

Copy fees, charged by the "document" not by the page, are set by statute (357.021 as of July 2013); the fee for an uncertified copy of a document is \$10.00, if certified the fee is \$16.00. Most courts accept personal checks.

An exact name is required to search, e.g., a request for "Robert Smith" will not result in finding "Bob Smith." The requester must request both names and pay two search and copy fees. When a search is permitted by "plaintiff or defendant," most jurisdictions state that a case is indexed by only the first plaintiff or defendant. Second or third party names may not be sufficient information for a search.

All courts provide public access terminals (PATs). Each terminal provide statewide access for all District Courts – not just data from the county. Documents from many types of cases filed in all counties are now available at courthouse terminals.

The Judicial Branch in Minnesota is adding a new feature to the public access terminals at the District Courts - the addition of case file documents. District courts are currently in the process of converting paper case documents into digital images to be stored in the Minnesota Court Information System (MNCIS) and viewable via the courthouse terminals in all Minnesota courthouses as part of the Trial Court Public Access (MPA) system.

Minnesota offers the Trial Court Public Access (MPA) of searching statewide or by county. Records available include criminal, civil, family, and probate. Searches can be performed using a case number or by name. See <http://pa.courts.state.mn.us/default.aspx>.

There are a number of caveats, especially for criminal record searches. **Certain publicly-accessible case records or data fields found at the courthouse cannot be viewed online.** For example, comment fields for all case types are not available online but are available at the

Online Access is Statewide, But is Not Complete - Caution Needed

courthouse. Party street address and name searches on criminal, traffic, and petty misdemeanor pre-conviction case records are not accessible online, but are at the courthouse. A criminal/traffic/petty search excludes all Hennepin County and Ramsey County payable citations except: 1) those that result in a court appearance; and 2) Ramsey DNR payable citations. Also, Party street address and name searches on criminal pre-conviction case records are publicly accessible and available at the courthouse, but not online. The federal Violence Against Women Act (VAWA) prevents the state from displaying harassment and domestic abuse case records online, but these convictions are available at the courthouse. Online users are not notified when such public data is restricted from online viewing.

The bottom line is the online system is best as a supplemental search when true due diligence is needed.

Minnesota Recording Offices

- Organization:** 87 counties, 87 recording offices. The recording officer is the County Recorder. Minnesota is in the Central Time Zone (CST)
- Types of Documents Recorded** Recorded documents at the county level include those related to Real Estate Transactions (both Abstract and Torrens), Personal Property Financing Statements, State and Federal Tax Liens, Hospital Liens, Birth and Death Records, Military Discharges, and Notary Public Licensing.
- Recorded Document Search:** Many Minnesota counties will perform real estate searches, including over the phone if kept to short questions. Uncertified copy fees vary. Certification fee is usually \$10.00 per doc which includes the copy fee.
- Searching Tax Lien and UCC Records:** Federal and state tax liens on personal property of businesses and on individuals can be filed either with the Secretary of State or with the County Recorder. Both locations must be searched. Some counties search each tax lien index separately, and charge \$15.00 or \$20.00 fee to search both indexes, but others charge a separate fee for each index searched. Search fees vary.
- Until July 1, 2001 all non-real estate UCC filings were performed at the state level and placed into the central statewide database (accessible from any county office.) Now, the only filings recorded by the County Recorder are real estate related collateral. Most counties will perform UCC searches, fee varies from \$10.00 to \$30.00 per name. Use search request form UCC-11. The UCC search can include tax liens. A special search form UCC-12 is used for separate tax lien searches.
- Online Access:** There is no statewide system. However, a number of counties offer web access to recorded data and assessor data. And there are two vendors of note.

Access recorded land data by subscription on the Tapestry System for with 16 participating counties. One can either use a credit card and pay \$5.95 per image or take advantage of a subscription with a flat rate. See <https://tapestry.fidlar.com/Tapestry2/Default.aspx> for details.

Minnesota County Locator

You will usually be able to find the city name in the City/County Cross Reference below. However, only the official US Postal Service city names are included in this index. There are an additional 40,000 place names that people use in their addresses. Therefore, we have also included a ZIP/City Cross Reference immediately following the City/County Cross Reference.

If you know the ZIP Code but the city name does not appear in the City/County Cross Reference index, look up the ZIP Code in the ZIP/City Cross Reference, find the city name, then look up the city name in the City/County Cross Reference. For example, you want to know the county for an address of Menands, NY 12204. There is no "Menands" in the City/County Cross Reference. The ZIP/City Cross Reference shows that ZIP Codes 12201-12288 are for the city of Albany. Looking back in the City/County Cross Reference, Albany is in Albany County.
