## Searching Standards for Federal Courts:

District Courts indexed by defendant, plaintiff, and by case number. Bankruptcy Courts usually index by debtor and case number. Most case files created prior to 1999 were maintained in paper format only. Since 2006, all cases are filed electronically. Paper case files may be stored at the courthouse or forwarded to a designated Federal Records Center (see <http://archives.gov/frc>), the timeframe determined by the Court. These case files may be obtained via the Court or directly from the FRC.

Case data may be viewed PACER, the online public access program. An account is required, the fee is \$.10 per page; there is no fee if a usage does not exceed \$15.00 in a quarter. For details about PACER see the Appendix or go to <https://www.pacer.gov> or call 800-676-6856.

The copy fee is \$.50; \$.10 if electronic document is printed from terminal. Certification fee is \$11.00 per document and \$21.00 for exemplification, if available. If a case is still available from the individual federal court, the search fee is \$30.00. If the case is at the Archives, the case can be ordered from the court. The fee to retrieve a paper file is \$64.00 for the first box and \$39.00 ea add'l box. Also, the public can order copies direct online from the National Archives. Copies can be delivered by mail, fax, or email. See more information, including fees, at [www.archives.gov/research/court-records/.55](http://www.archives.gov/research/court-records/.55).

## Details on the Court Structure

The **District Courts** have general jurisdiction over criminal, civil, and juvenile matters. At one time there were County Courts, but these courts merged with the District Courts statewide in 1995. Thus these older County Court records are currently held by the 53 District Court Clerks within the 7 judicial districts.

**Municipal Courts** in North Dakota have jurisdiction for all violations of traffic and municipal ordinances, with some exceptions.

## Record Searching Facts You Need to Know

### Fees and Record Searching Tips

Since 1997, the standardized search fee in District Courts is \$10.00 per name and the certification fee is \$10.00 per document. The copy fee varies from \$.10 to usually no more than \$.25 per copy; however note a number of courts have a \$1.00 minimum. When searching records previous to 1995, it is recommended to include the phrase "include all County Court cases" in the request.

### Online Access is Statewide, but Caution is Recommended

All District Courts and fifteen Municipal Courts participate on an online access system for court record index data, including civil, criminal, probate, traffic, family case files as well as judgments. The web page is found at <http://publicsearch.ndcourts.gov/>. There are a variety of searches, including by name, case number, attorney, and date filed. Results will provide year of birth for criminal (or entire DOB is entered as part of search), but not for civil, family or judgments.

Data throughput varies by each county; most counties go back at least 7 years. Some counties have data included from as early as 1991 and beyond; other counties that have been added in 2003 will have data for only the most recent cases. Data is current through the end of the previous business day.

The online site does not have access to case file images, but the public access terminals onsite at the court locations do. If the online system or the public access terminals give the full DOB for criminal record will depend on the county. Some search results may show a partial SSN.

# North Dakota Recording Offices

- Organization:** 53 counties, 53 recording offices. The recording officer is the County Recorder, changed from Register of Deeds as of 8/2001. Most of North Dakota is in the Central Time Zone (CST). Southwestern Counties (and most counties bordering on Montana except the northernmost) are in Mountain Standard Time (MST).
- Types of Documents Recorded:** The Recorder acts as the custodian of land records in the county and is responsible for recording and processing of legal documents related to real estate. The documents include all variations of deeds, patents, plats, contacts for deed, mortgages, assignments, satisfactions, releases, easements, highway right-of-way instruments, oil and gas leases, affidavits and recorded documents.
- The Recorder files personal property liens in the statewide Central Indexing System, which links 53 counties and the Secretary of State Office.
- Recorded Document Search:** Some counties will perform real estate searches by name or by legal description. Real estate record copy fee is usually \$1.00 per page. Certified copies are usually \$5.00 for the first page and \$2.00 for each additional page. Copies may be faxed back, often \$3.00 per doc.
- Searching Tax Lien and UCC Records:** Federal tax liens on personal property of businesses are filed with the Secretary of State. Other federal and all state tax liens are filed with the County Recorder. All counties will perform tax lien searches. All counties access a statewide computer database of filings and will perform UCC searches. Some counties automatically include business federal tax liens as part of a UCC search because they appear on the statewide database. However, be careful - federal tax liens on individuals may only be in the county lien books, and not on the statewide system. A UCC search with copies costs \$7.00 per debtor name, including 3 pages of copies and \$1.00 per additional page. UCC copies may be faxed for an additional \$3.00 fee. Separate tax lien searches are usually available at \$5.00-\$7.00 per name. Tax lien copy fees vary. Tax lien copies may be faxed.
- Online Access:** The North Dakota Recorders Information Network (NDRIN) is an electronic central repository representing all of the North Dakota counties. The network offers Internet access to records, indices, and images. There is a \$25 monthly usage fee, and a \$1.00 charge per page printed. Register or request information via the website at [www.ndrin.com](http://www.ndrin.com).
- Property Tax**  
Property tax data is available from 16 counties at [www.ndpropertytax.com](http://www.ndpropertytax.com).

# North Dakota County Locator

You will usually be able to find the city name in the City/County Cross Reference below. In that case, it is a simple matter to determine the county from the cross reference. However, only the official US Postal Service city names are included in this index. There are an additional 40,000 place names that people use in their addresses. Therefore, we have also included a ZIP/City Cross Reference immediately following the City/County Cross Reference. If you know the ZIP Code but the city name does not appear in the City/County Cross Reference index, look up the ZIP Code in the ZIP/City Cross Reference, find the city name, then look up the city name in the City/County Cross Reference.
